 - C. Import of capital goods at concessional rate of duty subject to an appropriate export obligation accepted by the importer. Option ID 33303
 - D. Grant of credit on post-export basis as specified percentage of F.O.B value of exports made in a freely convertible currency. Option ID 33304

ANS:B

QBID:328002

2. An Indian company receiving investment from outside India for issuing shares/convertible debentures/preference shares under the FDI Scheme should report the details of the inflow to the RBI. What is the time limit for reporting these details to RBI?
- A. Within 10 days from the date of receipt Option ID 33305
 - B. Within 15 days from the date of receipt Option ID 33306
 - C. Within 30 days from the date of receipt Option ID 33307
 - D. Within 45 days from the date of receipt Option ID 33308

ANS:C

QBID:328003

3. Which one of the following theories of attitude change states that changes in opinions can result in to an attitude change?
- A. Balance Theory Option ID 33309
 - B. Cognitive Consistency Theory Option ID 33310
 - C. Reinforcement Theory Option ID 33311
 - D. Cognitive Dissonance Theory Option ID 33312

ANS:C

QBID:328004

4. According to Porter's diamond, which of the following is NOT a factor of national competitive advantage?
- A. Relating and supporting industry Option ID 33313
 - B. Firm strategy, structure and rivalry Option ID 33314
 - C. Bargaining power of buyers Option ID 33315
 - D. Demand conditions Option ID 33316

ANS:C

QBID:328005

5. X and Y are partners sharing profits and losses in the ratio of 3 : 2. They admit Z as a new partner with $\frac{1}{5}$ share in the profits. Calculate the new profit sharing ratio of the partners.
- A. 12 : 8 : 5 Option ID 33317
 - B. 12 : 8 : 6 Option ID 33318
 - C. 12 : 7 : 6 Option ID 33319
 - D. 12 : 3 : 7 Option ID 33320

ANS:A

QBID:328006

6. At the break-even point, contribution is equal to
- A. Variable cost Option ID 33321
 - B. Profit Option ID 33322
 - C. Fixed cost Option ID 33323
 - D. Sales Option ID 33324

ANS:C

QBID:328007

7. Which one of the following is NOT true?
- A. Capital expenditure results in extra capacity Option ID 33325
 - B. Capital expenditure results in a benefit which will last for a long time Option ID 33326
 - C. Capital expenditure results in the acquisition of a permanent asset Option ID 33327
 - D. Heavy expenditure on advertisement campaigns in order to introduce a new product in the market Option ID 33328

ANS:D

QBID:328008

8. As per the information given below, what is the correct material yield variance ?
- Standard input = 100 kg
Standard yield = 90 kg
Standard cost per kg of output = Rs.20
Actual input = 200 kg
Actual yield = 182 kg
Actual cost per kg of output = Rs.19
- A. Rs 40 (Favourable) Option ID 33329
 - B. Rs 400 (Favourable) Option ID 33330
 - C. Rs 400 (Unfavourable) Option ID 33331
 - D. Rs 38 (Favourable) Option ID 33332

ANS:A

QBID:328009

9. When the negative income effect overwhelms the positive substitution effect so much that the demand curve is positively sloped, the commodity in consumption is described as;
- A. Normal good Option ID 33333
 - B. Inferior good Option ID 33334
 - C. Giffen good Option ID 33335
 - D. Luxury good Option ID 33336

ANS: C

QBID:328010

10. In the extreme case of perfect price discrimination, the entire consumer surplus in the market goes:
- A. To consumers Option ID 33337
 - B. To monopoly producer Option ID 33338
 - C. As deadweight loss Option ID 33339
 - D. To capital Option ID 33340

ANS: B

QBID:328011

11. A situation, in which economic actors interacting with one another, each choose their best strategy, given the strategies that all the other actors have chosen, is called
- A. Nash equilibrium Option ID 33345
 - B. Prisoners' dilemma Option ID 33346
 - C. Dominant strategy Option ID 33347
 - D. Predatory strategy Option ID 33348

ANS: A

QBID:328012

12. In the Cobb- Douglas production function, $Q = AK^aL^b$, where 'a' and 'b' are output elasticities of capital and labour, respectively. If $a + b > 1$, the underlying return to scale will be
- A. Increasing Option ID 33349
 - B. Decreasing Option ID 33350
 - C. Constant Option ID 33351
 - D. Linear Option ID 33352

ANS: A

QBID:328013

13. Which one of the following institutions is not a part of the World Bank Group?
- A. International Bank for Reconstruction and Development (IBRD) Option ID 33353
 - B. International Development Association (IDA) Option ID 33354
 - C. Multilateral Investment Guarantee Agency (MIGA) Option ID 33355
 - D. The Bank for International Settlements (BIS) Option ID 33356

ANS: D

ANS:D

QBID:328015

15. An economic enterprise requires 90,000 units of certain item annually. The cost per unit is Rs 3. The cost per purchase order is Rs 300 and the inventory carrying cost is Rs 6 per unit per year. What is EOQ?
- A. 3000 units Option ID 33361
 - B. 1500 units Option ID 33362
 - C. 6000 units Option ID 33363
 - D. 4500 units Option ID 33364

ANS:A

QBID:328016

16. Dell Ltd. has Rs 100 preference shares redeemable at a premium of 10% with 15 years maturity. The coupon rate is 12%; the flotation cost is 5% and the sale price is Rs 95. Calculate the cost of preference shares and select the correct option.
- A. 12% - Option ID33365
 - B. 12.67% - Option ID 33366
 - C. 13 % - Option ID33367
 - D. 13.33% - Option ID 33368

ANS:D

QBID:328017

17. Which of the following is not a characteristic of normal distribution?
- A. The mean of the normal distribution may be negative or positive Option ID 33369
 - B. For any normal random variable x , $P(x \leq \mu) = P(x \geq \mu) = 0.50$ Option ID 33370
 - C. For every pair of values μ and σ the curve of the distribution is bell-shaped and symmetric Option ID 33371
 - D. The kurtosis of the distribution is always less than 3 Option ID 33372

ANS:D

QBID:328018

18. For a Poisson distribution $P(x) = \frac{e^{-5}(5)^x}{x!}$ the mean value is

- A. 2 Option ID 33373
- B. 5 Option ID 33374
- C. 10 Option ID 33375
- D. 25 Option ID 33376

ANS:B

QBID:328019

19. Which of the following is used to assess the relationship between two ordinal variables ?

- A. Spearman's rho Option ID 33377
- B. Phi Option ID 33378
- C. Cramer's V Option ID 33379
- D. Chi-square Option ID 33380

ANS:A

QBID:328020

20. A "Spurious" relationship between two variables is expressed as :

- A. An apparent relationship that is so curious that it demands further attention. Option ID 33381
- B. A relationship that appears to be true because each variable is related to a third one. Option ID 33382
- C. One that is so ridiculously illogical that it cannot be possibly true. Option ID 33383
- D. One that produces a perfect negative correlation on a scatter diagram. Option ID 33384

ANS:B

QBID:328021

21. Which one of the following motives characterizes dominant organizational climate of clubs?

- A. Extension Option ID 33385
- B. Affiliation Option ID 33386
- C. Dependency Option ID 33387
- D. Achievement Option ID 33388

ANS:B

QBID:328022

22. Which one of the following is the description of Ego Regression Mechanism?

- A. Returning to a previous stage of psyche development Option ID 33389
- B. Avoiding unacceptable emotions by focusing on the intellectual aspects Option ID 33390
- C. Taling out impulses on a less threatening target Option ID 33391
- D. Pulling into the unconscious situation Option ID 33392

ANS:A

QBID:328023

23. Which one of the following is not an advantage of organization structure by product in a manufacturing company?
- A. Places attention and effort on product line Option ID 33393
 - B. Requires less persons with general managerial abilities Option ID 33394
 - C. Improves coordination of functional activities Option ID 33395
 - D. Permits growth and diversity of products Option ID 33396

ANS:B

QBID:328023

24. Which one of the following is not an assumption under the McGregor's Theory Y?
- A. The degree of commitment to objectives is in proportion to the size of the rewards associated with their achievement. Option ID 33397
 - B. Under the conditions of modern industrial life, the intellectual potentialities of the average human being are only partially utilized. Option ID 33398
 - C. External control and the threat of punishment are the only means for producing effort towards organizational objectives. Option ID 33399
 - D. Average human beings learn, under proper conditions, not only to accept responsibility but also to seek it. Option ID 33400

ANS:C

QBID:328025

25. The minimum capital requirement for a life insurance company in India is :
- A. Rs 300 crores Option ID 33401
 - B. Rs 200 crores Option ID 33402
 - C. Rs 500 crores Option ID 33403
 - D. Rs 100 crores Option ID 33404

ANS:D

QBID:328026

26. Universal banks that function as investment banks in India are regulated by :
- A. SEBI Option ID 33405
 - B. RBI Option ID 33406
 - C. Ministry of Finance Option ID 33407
 - D. IRDA Option ID 33408

ANS:A

QBID:328027

27. When the RBI desires to restrict expansion of credit, it:
- A. Increases the bank rate Option ID 33409
 - B. Decreases the bank rate Option ID 33410
 - C. Decreases the CRR for banks Option ID 33411
 - D. Decreases the SLR for banks Option ID 33412

PASSAGE 1

The invention of the office - from the Latin opus (work) + facere(do) = officium (performance of work) - was necessitated by the inability of work to be done remotely. Until very recently, the prevalent technology was simply not available or very limited to allow work away from office. If you had to conduct stocktaking, copy documents or engage in a brainstorming session, one had to be physically close to the tools of work and co-workers. Even as the technology was becoming increasingly available, it was the forced disruption of pandemic that finally showed that office, like the stock exchange trading floor, as a shared physical - only space was no longer essential to carry out work. Today, as Covid restrictions thankfully recede, the push that had become the shove of working from home (WFH) is becoming a nudge for working from anywhere (WFA).

Neither can all work be conducted WFA nor to all workers prefer remote working. Several reasons for the primacy of the "face-to-face¹ work model are trotted out - 'water-cooler' engagements; ideas flying 'better' at corporeally attended meeting; company values welded only under 'one roof, one team' norms. But studies, including pre-pandemic ones conducted by the likes of Harvard Business School's Prithwiraj Choudhury, have shown that WFA is a 'win-win for 'Workers, Companies and for Society'. WFA slashes time and energy expended in commutes; allows workers the choice of their work surroundings that may actually improve their quantitative and qualitative output; provides less crowded space for those who choose offices as their comfort work zone. Most importantly, for companies, it allows HFA - hiring from anywhere, thereby breaking the talent pool distance barrier.

The new hybrid work culture is still a work-in progress. Floor managers will have to be trained to manage a different kind of floor. Company values will need to flourish in a digital-deeper environment. The idea of work-life balance itself has to be rejigged. But the bottom line is work optimisation. For which WFA, without the stress of a pandemic around, makes damn good pitch.

QBID:328091

91. Given below are two statements, one is labelled as Assertion A and the other is labelled as Reason R
Assertion A: Work from Anywhere is only possible in case of employees working independently.
Reason R: Brainstorming sessions are possible in the case of Work from Anywhere.

In light of the above statements, choose the most appropriate answer from the options given below

- A. Both A and R are correct and R is the correct explanation of A Option ID 33665
- B. Both A and R are correct but R is NOT the correct explanation of A Option ID 33666
- C. A is correct but R is not correct Option ID 33667
- D. A is not correct but R is correct Option ID 33668

PASSAGE 2

Capital flows, exchange rates and the interest rates are causes of immediate concern to the national economies. Central banks of various countries have been using a variety of methods with the excessive capital inflows. Foreign portfolio investment have a direct and indirect impact on exchange rates, valuation of traded assets and yields of various government and corporate securities.

RBI, in the post-pandemic scenario and the recent Russia-Ukraine war situation is working on multiple options to stabilize the exchange rates by protecting both the exporters and importers. One way which RBI adopts to maintain a desirable level of exchanges rates is to mop up nets foreign exchange assets from scheduled commercial banks in exchanges of domestic currency (T) assets. The liquidity flows are, in essence, inflationary. RBI has projected a comfortable GDP rate for the current fiscal and believes a reasonable level of CPI inflation as 5.3%.

The retail inflation, according to the RBI governor, recently is likely to be 4.5% in 2023 fiscal. With this perspective, the repo rate and reverse repo rate remain at 4% and 3.35%, respectively, since May 22, 2020. A balancing act between economic growth and inflation is visible. Though the RBI rates are consistent, the burden on borrowers for the short-term and long term, is still unpredictable.
